7 Smoking policy

7.1 The School operates a smoke free policy and a total smoking ban within its buildings, grounds and vehicles.

7.2 The total smoking ban applies to the whole School community including pupils, employees, volunteers, parents, visitors, members of the public and others working in or using the School's premises or vehicles and the circumstances set out in paragraph 2 of this policy.

8 School rules

8.1 Pupils are forbidden from:

8.1.1 smoking inside or outside School premises, being in possession of tobacco, nicotine and nicotine substitutes, e-liquids, electronic cigarettes, cig-a-likes and/or vaporising devices while in the care of the School or supplying any such products to other pupils;

8.1.2 bringing alcohol onto School premises or being in possession of alcohol without prior consent or obtaining or supplying alcohol to another, or being impaired by alcohol while on School premises or in the care of the School;

8.1.3 any production, possession, use or supply of drugs and substances;

8.1.4 bringing the School into disrepute for any reason associated with tobacco, alcohol or drugs and substances, whether or not the pupil is in the care of the School at the relevant time.

8.2 Parents

8.2.1 If a parent attending School premises appears to be under the influence of alcohol, drugs or substances, they will be asked to leave and the member of staff making the request should refer the matter to the DSL.

8.2.2 If a member of staff suspects that a parent has driven or will drive whilst under the influence of alcohol, drugs or substances, the member of staff should report the matter to the DSL or a member of the Senior Leadership Team or Junior School Senior Team who may telephone the police.

8.2.3 If the DSL reasonably believes that a child is at immediate risk of harm from a parent who is under the influence of alcohol, drugs or substances, the child will not be released into the care of the parent and the School's child protection procedures will be followed.

9 Education and instruction

9.1 The education of pupils about alcohol, tobacco, drugs and substances and their dangers forms part of the School's programme of Personal, Social, Health and Economic Education (**PSHE**) and the Science curriculum and within the framework of the overall pastoral care policy. It includes classroom teaching, group discussions and talks by experts from outside the School.

9.2 The School educates pupils to understand:

9.2.1 the effect and risks associated with the use of alcohol, tobacco, drugs and substances in relation to their health and well-being and the law; and

9.2.2 possible criminal offences relating to their use.

9.3 All members of staff receive training about alcohol, tobacco, drugs and substances so that they are alert to the warning signs of drug misuse and can respond appropriately when pupils seek advice or assistance.

9.4 The School is alert to the potential need for early help for a child who misuses drugs or alcohol. A member of staff who has any concern about a pupil's welfare, or considers that a pupil may benefit from early help, should report this to the DSL in accordance with the School's Safeguarding and Child Protection Policy and Procedures.

10 Advice and assistance

10.1 Pupils are encouraged to discuss their anxieties about their own or others' use of alcohol, tobacco, drugs and substances in confidence with a member of staff or other responsible adult. They will be offered support within the School, usually by the School Counsellor and can also have access to information about outside agencies able to provide advice, support and assistance. Accredited counselling services can be recommended by the School to a pupil in appropriate circumstances, generally after consultation with their parents.

10.2 Parents are asked to inform the Headmistress, The Head of Junior School or the Deputy Head of the Senior School or the Deputy Head of the Junior School as appropriate if they have any reason to think that their child may have been involved with alcohol, tobacco, drugs and substances, so that suitable advice, support and assistance can be given. If a parent reports their child as a user of nicotine, alcohol, drugs or substances or a pupil themselves does so and asks for help, the pupil is likely to be given at least one opportunity to reform their behaviour with appropriate support.

10.3 Taking disciplinary action under this policy and providing appropriate support are not mutually exclusive actions. The School will have regard to the individual circumstances of each child and each case when considering the appropriate response to a breach of the rules set out in this policy, and will also consider proportionality, consistency and fairness.

10.4 Each case will be given careful consideration in light of its individual circumstances. Support will always be offered and the Headmistress or Head of the Junior School as appropriate will consider appropriate strategies to help the pupil understand the behaviour expectations of the School and how to comply with them.

10.5 The Headmistress or the Head of the Junior School as appropriate and in consultation with the Headmistress will make a decision as to whether or not the School's disciplinary procedure is to be followed and whether or not to request that the pupil agrees to a formal programme which may include: counselling, re-education and testing.

11 Child protection and risk assessment

11.1 The School will consider whether a breach of this policy gives cause to suspect that a pupil is suffering, or is likely to suffer harm. Where this is the case, the member of staff should report this to the DSL in accordance with the School's safeguarding and child protection policy and procedures who will in turn consider an early help intervention or a referral to Children's Social Care.

11.2 Where a concern about a pupil's welfare is identified, the risks to that pupil's welfare will be assessed and appropriate action will be taken to reduce the risks identified.

11.3 The format of risk assessment may vary and may be included as part of the School's overall response to a welfare issue, including the use of individual pupil welfare plans (such as behaviour, healthcare and education plans, as appropriate) or its usual safeguarding information system. Regardless of the form used, the School's approach to promoting pupil welfare will be systematic and pupil focused and that any measures put in place are regularly reviewed.

11.4 The Deputy Head of the Senior School, the Deputy Head of the Junior School and the Bursar have overall responsibility for ensuring that matters which affect pupil welfare are adequately risk assessed and for ensuring that the relevant findings are implemented, monitored and evaluated.

11.5 Day to day responsibility to carry out risk assessments under this policy will be delegated to the Deputy Head of the Senior School, the Deputy Head of the Junior School and the Bursar who have been properly trained in, and tasked with, carrying out the particular assessment.

12 Investigation

12.1 Every complaint, allegation or rumour or observation of pupil behaviour in relation to tobacco or alcohol or involvement with drugs and substances will be followed up and investigated in accordance with this policy and the procedures set out in the School's behaviour and discipline policy.

12.2 If the findings of the investigation support the allegation, complaint or rumour or observation of pupil behaviour, a disciplinary meeting will usually be held, in accordance with the procedures set out in Appendix 3 of the School's behaviour and discipline policy.

12.3 Searches for tobacco, alcohol, drugs and substances

12.3.1 School staff can search a pupil for tobacco, alcohol, drugs or substances if they agree. The member of staff should ensure the pupil understands the reason for the search and how it will be conducted so their agreement is informed..

12.3.2 When exercising their powers, consideration will be given to the age and needs of the pupil being searched, including the individual needs or learning difficulties of pupils with Special Educational Needs (**SEN**) and making reasonable adjustments that may be required where a pupil has a disability.

12.3.3 If a pupil refuses to cooperate with a search, School staff should assess whether it is appropriate to use reasonable force to conduct a search without their cooperation in accordance with the School's policy on searching and confiscation (see the procedures set out in Appendix 4 of the School's behaviour and discipline policy) and/or to consider disciplinary action as a consequence.

12.4 Testing

12.4.1 A pupil reasonably suspected of unauthorised consumption of alcohol or involvement with drugs or substances may be asked to give a biological sample. The reason for this policy is to:

- (a) deter breaches of School discipline;
- (b) identify users;
- (c) absolve those who have been wrongly suspected.

12.4.2 Alcohol

See Appendix 1 for details of the testing procedure for alcohol.

12.4.3 Drugs and substances

See Appendix 2 for details of the testing procedure for drugs and substances.

12.4.4 Although tests are not infallible, the School will treat a positive test as evidence that the pupil is likely to have consumed alcohol or been using drugs or substances, as appropriate.

13 Consent to testing

13.1 The relevant consent to a test is that of the pupil rather than their parent(s) provided that they are of sufficient maturity and understanding and give their informed consent in writing. Where the pupil is not deemed to have sufficient maturity or understanding or to be fit to give informed consent themselves, then consent will be sought from a parent.

13.2 The member of staff leading the investigation will determine whether or not the pupil is able to provide this consent and may request the additional opinion of a medically qualified member of staff or other person.

13.3 If a pupil refuses to provide a biological sample they will be asked to say why they have refused. Where the pupil is of sufficient maturity, the School will be entitled to draw appropriate inferences from their response and general demeanour. If a parent's consent is required and they refuse to consent to their child providing a biological sample, or their child refuses to cooperate in spite of their consent, the School may only draw appropriate inferences from the pupil's general demeanour.

13.4 Reasonable endeavours will be made, before a biological sample is taken, to notify a parent, guardian or education guardian of the requirement for a biological sample and the reasons for that requirement.

14 Police involvement

14.1 The School is usually required to notify the police and / or relevant agencies of actual or alleged criminal activity.

14.2 If the School suspects that a criminal offence has taken place in relation to the possession, use or supply of alcohol, drugs or substances, then consideration will be given to reporting this to the police and the relevant local authority.

14.3 The DSL will take a lead role in all cases where a pupil is detained and questioned by the police, to ensure that the pupil is supported by an appropriate adult in line with PACE Code C (Code of Practice for the detention, treatment and questioning of persons by Police Officers). The role of the appropriate adult is to:

14.3.1 support, advise and assist the pupil when they are given or asked to provide information or participate in any procedure;

14.3.2 observe whether the police are acting properly and fairly to respect the pupil's rights and entitlements, and inform an officer of the rank of inspector or above if they consider that they are not;

14.3.3 assist the pupil to communicate with the police whilst respecting their right to say nothing unless they want to; and

14.4 help them to understand their rights and ensure that those rights are protected and respected.

14.5 If the police suspect that a pupil possesses or has stored drugs, substances or related paraphernalia, they may elect to investigate using their own procedures or may pass the matter back to the School to investigate.

14.6 If the School seizes a controlled drug, it must deliver the drug to the police as soon as reasonably practicable, or dispose of it if they believe there is a good reason to do so. Substances suspected to be controlled drugs will be dealt with in the same manner.¹

14.7 Other substances considered to be harmful or detrimental to good order and discipline will be confiscated. A senior member of staff will take account of all relevant circumstances and use their professional judgement to determine whether they can safely dispose of the seized substance.²

14.8 The School will retain, dispose or destroy tobacco, alcohol, and smoking equipment.³

15 Sanctions

15.1 Where a pupil breaches any of the School rules set out in this policy, the Proprietor has authorised the Headmistress and the Head of the Junior School as applicable to apply any sanction which is appropriate and proportionate to the breach in accordance with the School's behaviour and discipline policy. In addition consideration will be given to appropriate support for the pupil, as disciplinary action and supportive measures will not be mutually exclusive.

15.2 The following guidelines as to sanctions will apply:

15.2.1 **Tobacco and alcohol:** Sanctions will be applied in accordance with the School's behaviour and discipline policy. For a serious breach or persistent breaches, a pupil may be expelled or removed from the School.

15.2.2 **Drugs:** Sanctions will be applied in accordance with the School's behaviour and discipline policy. Any pupil producing or supplying drugs or substances should expect to be expelled even if they are about to sit public examinations.

16 Training

16.1 The School ensures that regular guidance and training is arranged on induction and at regular intervals thereafter so that staff and volunteers are alert to the warning signs of smoking, alcohol and drug misuse, understand what is expected of them by this policy and have the necessary knowledge and skills to carry out their roles and respond appropriately when pupils seek advice or assistance.

16.2 The School will ensure that a sufficient number of staff are appropriately trained in how to lawfully and safely search a pupil who is not co-operating, so that these trained staff can support and advise other members of staff if this situation arises.

16.3 The level and frequency of training depends on the role of the individual member of staff.

16.4 The School maintains written records of all staff training.

17 Record keeping

17.1 All records created in accordance with this policy are managed in accordance with the School's policies that apply to the retention and destruction of records.

¹ In accordance with the law and recommendations set out in *Searching, screening and confiscation: advice for schools* (DfE, September 2022) and *DfE Drugs advice for schools* (September 2012)

² In accordance with the law and recommendations set out in *Searching, screening and confiscation: advice for schools* (DfE, January 2018)

³ In accordance with the law and recommendations set out in *Searching, screening and confiscation: advice for schools* (DfE, January 2018)

17.2 Sensitive personal information about pupils is disclosed only on a "need to know" basis with careful attention to pupils' rights and needs.

17.3 The records created in accordance with this policy may contain personal data. The School has a number of privacy notices which explain how the School will use personal data about pupils and parents. The privacy notices are published on the School's website. In addition, staff must ensure that they follow the School's data protection policies and procedures when handling personal data created in connection with this policy.

Appendix 1 Testing for alcohol

- 1 **Method of use:** Only members of staff who have received training will be authorised to administer the breathalyser. In general, they will be members of the Senior Leadership Team.
- 2 **Refusal:** If a pupil refuses to provide a sample of breath, they may be asked to supply, under medical supervision, a further biological sample for analysis in accordance with the drug testing procedures (see Appendix 2).
- 3 **Record:** A written record will be kept when a pupil is asked to take a test and its outcome will be recorded.

(<https://www.ukdrugtesting.co.uk/collections/home-drug-testing-kits>)*

Appendix 2 Testing for drugs and substances

1 **Biological sample:** If there is reason to suspect that a pupil has been involved with drugs and / or substances, they may be asked to supply, under medical supervision, a biological sample (e.g. saliva, hair or urine) for analysis.

2 **Medical supervision:** The biological sample will be taken under medical supervision. A member of the School staff will also be present. All due care will be taken to respect the pupil's privacy and human rights.

3 **Testing procedures:** These will be in accordance with standard good practice and where applicable the *Testing for substance misuse in schools* (June 2020) produced by the Medical Officers in Schools Association (**MOSA**):

3.1 care will be taken to make as certain as possible that the sample provided is genuine and uncontaminated;

3.2 the pupil will be asked to sign various seals and documents which confirm that the specimens are theirs;

3.3 the pupil will also be asked to sign a form which signifies that they are satisfied with the collection procedure and give consent for the results of the test being made available to the Headmistress.

4 **Medical record:** The outcome of the test, whether positive or negative, will not form part of the pupil's permanent medical record.

5 **Outcome:** When the School receives the laboratory report:

5.1 reasonable attempts will be made to notify the pupil and a parent;

5.2 if the result is negative, any second sample will be destroyed immediately;

5.3 if the result is positive, a second sample will be made available for independent analysis.

6 **Interference with other medication:** The school is aware that some medication can interfere with a reliable outcome of a test (this includes some ADHD medication) and every effort will be made to identify these interferences and to choose an appropriate and reliable method of testing. The school medical staff will be consulted to avoid false positives.
